Mission Statement:

Located in Dardanelle and serving Pope and Yell Counties, the McElroy House is a grassroots community-based organization working to find local solutions to local problems. Valuing our landscape and our cultural resources, we explore how the past informs the present, and how, by building bridges across generations and cultures, we can work toward a stronger and more inclusive future for Pope and Yell Counties. We do this through community-based media work, community organizing, oral histories and much more.

We also work to find connections and commonalities between communities in rural and urban areas and help grow conversations and partnerships between communities.
